1. It has been observed that many sellers are not updating the supply position in GeM portal even after affecting the supplies. It may be noted that it is mandatory to generate invoice in GeM also. Non generation of Invoice in GeM would lead to treatment of that order as not supplied and would reflect as bad performance against that seller. This will not only lead to degradation of the Seller rating on GeM but may also lead to automatic generation of Incident against the Seller since GeM is now going to automate the Incident generation process. You are therefore advised to immediately update all your supply positions and payment positions in GeM portal even if the payments have been made in an off-line manner. This would save your account from being disabled / watch-listed due to auto generation of incidents for non-supply.
